For the following rows, repeat rows 31 to 36, replacing every 6 rows the stitches in bold with 22 stitches, then 25 stitches, 28, 31, 34, 37, 40, 43, 46, 49, 52, 55, 58 , 61, 64, 67, 70 and 73 stitches. You will have 155 stitches. You will have about 28 grams of yarn left if you use Iride , or about 20% of the ball . If you want to lengthen the work and you have more yarn, knit until you have 20% of your starting weight by adding 3 knit stitches every 6 rows (76, 79, 82 stitches etc.). Then finish the shawl as follows:

R1 :k2, 1Yo, k1,* 1Yo, sl1, k2, bind off the slip stitch over the 2 knit stitches* , finish with k2.

R2 and every wrong side rows: k2, * p* , finish with k2.

R3 :k2, 1Yo, k1, *1Yo, sl1, k2, bind off the slip stitch over the 2 knit stitches* , finish with k3.

R5 :k2, 1Yo, k1,* 1Yo, sl1, k2, bind off the slip stitch over the 2 knit stitches,* finish with k4.

When you have about 8 grams left(or enough to do 5 more rows), make 4 rows by knitting all the stitches. Then on the right side, very loosely bind off all stitches. Wash and block the work which will form itself into a triangle shape. Bring in the threads and cut them short.
